**Shell Aviation**

### **1:13 PM Eastern Daylight Time (EDT): Partial Eclipse Begins**

*The process of the sky darkening is so gradual that it is barely discernible. However, when the moon totally covers the sun, darkness falls very rapidly.*

### **2:41-2:44 PM EDT: Total Solar Eclipse**

*100% "totality" is reached. Approximately 2 minutes and 30 seconds of darkness in greater Columbia, SC area. After the total eclipse, viewers see another partial eclipse in the opposite direction.*

### **4:06 PM EDT: Eclipse Ends**
