

Are you interested in owning your own aircraft and offsetting ownership costs?

If so, Eagle Aviation's leaseback program could be an excellent option for you. We are looking to sell our current charter aircraft, which is a well-equipped, well-maintained 1990 Citation V to a client in the Columbia, SC area who would be willing to allow us to continue to charter it when you're not using it. This is a great opportunity to mitigate your operating cost with one of the oldest charter operators in the United States. Trained crews, mechanics, dispatch, etc. all in place and ready to go to work for you.

By investing in your own aircraft leasing business, you can enjoy the benefits of owning an aircraft while reducing expenses through Eagle Aviation's charter and management services.

Our program offers you the opportunity to utilize your aircraft while generating revenue when you are not using it. Additionally, there could be potential tax benefits associated with a leaseback program, benefiting most owners and investors.

Here are the key features of our leaseback, charter and aircraft management program:

- Boutique Concierge Service with a dedicated point of contact
- Scheduling assistance
- Monthly billing and revenue reconciliation
- Aircraft hangar storage
- Compliance with Federal Regulations
- Adherence to Safety Requirements and Regulations
- Maintenance services
- Insurance coverage

Benefits for you include:

- Increased utilization of your aircraft, ensuring it stays active and in optimal condition
- Comprehensive maintenance according to FAA Part 145 and 135 Standards
- Potential tax incentives (consult your tax accounting professional for personalized advice)
- An established Air Charter certificate that was originally certified in 1977
- Experienced Pilots who are already FAA trained and certified.

If you're interested in exploring this opportunity or require assistance with an aircraft acquisition, feel free to contact **Doug Thomas** at dthomas@eagle-aviation.com regarding this leaseback opportunity.

We look forward to discussing how this program can benefit you and your aircraft ownership experience.
